Industry Circular No. 71-19

August 4, 1971

### REPORTING ON FORM 103 OF FLAVORS USED IN THE PRODUCTION OF FLAVORED MALT BEVERAGES

#### Brewers and Others Concerned:

Because of the increased production and marketing of flavored malt beverages, it is considered desirable for administrative purposes to have reported the quantities of flavoring materials used. A revenue procedure prescribing the reporting of such materials in pounds as separate items in Part II of Form 103, Brewer's Monthly Report of Operations, will be published soon in the Internal Revenue Bulletin. The reporting procedure is effective beginning with the monthly report covering transactions occurring during the month of July, 1971.

Inquiries regarding this circular should refer to its number and be addressed to your Assistant Regional Commissioner, Alcohol, Tobacco and Firearms.
